Ocean Beach Area Leads Entire City In Permits For New Residences

OCEAN BEACH, LA PLAYA AND LOMA PORTAL HAVE 623 PERMITS

The Ocean Beach area, including Loma Portal and La Playa, evidently is the fastest growing section of the entire city, judging from a report made last week by Glenn Rick, city planning director. His tabulation shows a total of 623 building permits issued for the first half of 1947 in the area of Point Loma peninsula.

Of the total, 251 permits have been issued for Ocean Beach postal zone seven, 224 in the Loma Portal section and 148 in the La Playa section of the area.

Pacific Beach Second

The Pacific Beach section of the city was second in total of building permits issued, having 551 for the six months. The beach districts added together accounted for 53.8 percent of the total of 3111 new residental units for the entire city for the half year. La Jolla had a total of 259 permits for the same period.

Most recent of the permits for new residences in Ocean Beach include the following:

To Hazard & Slaughter for a residence at 1406 Catalina Blvd. at an estimated cost of $11,500; also a residence and garage for the same firm at 1428 Catalina at an estimated cost of $9,500.

To William & Ballam, for themselves, a residence and garage at 4536 Orchard Ave. at an estimated cost of $5700.

To James Wabeck, per H. G. Turner, a residence and garage at 4401 Saratoga Ave., at an estimated cost of $6500.

To J. W. Dyer Inc., for themselves, a residence and garage at 4468 Tivoli St., at an estimated cost of $5500.

To L. S. Hein, per J. T. Campbell, a residence and garage at 4533 Point Loma Ave., at an estimated cost of $5800.

To R. A. Schupp, per Sherman-Gray, a residence and garage at 4517 Orchard Ave., at an estimated cost of $6500.

To T. J. Getz, a residence and garage at 1823 Chatsworth, at an estimated cost of $5500.

To L. P. Ahrends, per Sherman-Gray, a residence and garage at 4536 Orchard Ave., at an estimated cost of $5700.

RONALD D. ANDERSON TO ATTEND OCCIDENTAL

Ronald D. Anderson, son of Mr. and Mrs. Walter Anderson of the Anderson Realty, was recently honored by being one of a limited number of high school graduates to be accepted for the fall semester at Occidental College in Los Angeles. Out of 1100 applicants, only 250 were accepted. Ronald's outstanding high school academic record was the deciding factor in having his application approved. He plans to take a four-year course in preparation for higher theological training. Ronald is spending the summer working on a North Dakota wheat ranch, belonging to an old friend of Mr. Anderson.

Baptist Church To Add 2 Classrooms For Sunday School

The Baptist church of Ocean Beach, in order to accomodate the increases in Sunday School attendance is planning to build two more class rooms, A. H. Beck, church treasurer, informed The News this week. Cost of the new addition is estimated by Mr. Beck at $4,000.

He said Wednesday night that "we thought we had the matter well taken care of last year when we added seven class rooms to the church building, but further increases in enrollment has made necessary another annex." Plan is to begin construction soon, he said. Average attendance is now around the 300-mark, he reports.

Willis Reid is superintendent of the Sunday School and W. J. Brewer is assistant superintendent.

Iowa Man to Preach

Arrangements have been made for Rev. Clifford F. Peron of the First Baptist church of Oelwein, Iowa to preach in the local Baptist church for several Sundays starting next Sunday, July 27. He and Mrs. Peron are enroute to Ocean Beach and expect to be here in time for Rev. Peron to take charge of the preaching service both morning and evening the coming Sunday. The forenoon preaching service starts at 11 o'clock and the Sunday evening service at 7:30.

Rev. Peron is a young man, in his 30s, and comes highly recommended by Rev. John Bunyan Smith, pastor of the San Diego First Baptist church.

Letters to the Editor

Dear Sirs:

I think we should keep to diagonal parking, as it gives people a chance to park when they come to the Beach to shop. Besides, we people who work in and around the Beach want a chance to get to the stores to pick up our supplies, without carrying them for blocks. Parallel parking would do a lot of harm to the local stores. Let's keep to the present style of parking.

Mr. and Mrs. Donald Cochrane, former residents for many years of Ocean Beach, are back here again. Soon after arriving he entered the Naval hospital for treatment. They are guests at the home of Mr. and Mrs. Glen Jones of 4453 Del Monte Ave.

RADIO-EQIUPPED CABS ASSIGNED TO THIS AREA

Harold Rogers, general manager of the Yellow Cab Co., announced this week that several radio-equipped cabs have been assigned to the beach districts. "This permits constant liaison between cabs and the home office, and expedites dispatching and service," said Mr. Rogers.

Approximately 275 adults and children were present at the Community Center on Monday night to witness exhibits of collectors and musical and dramatic acts presented by children of the community at the first annual Talent and Hobby Show, and the awarding of honors for the Pet Show held the previous week.

Joella Coles of 4655 Newport won first place in the modern songs division with her singing of "Old Devil Moon" and "Sunday Kind of Love," and Coral Brooks of 2475 Wolcott took second place in the same division with the song "I Wonder."

Three awards were given to girls, and one to boys, in the instrumental division. Car Demolished In 75-Foot Plunge From Sunset Cliffs Tuesday

A 1946 Mercury coupe, belonging to William Burke Jr. of Holtville, was demolished Tuesday when it ran driverless down Hill street and plunged off the cliff to the water 75 feet below.

Burke had parked the car on Hill st. three blocks above the cliff and was visiting with friends at the time of the accident. Ronnie Jones, Daryl Beddets, and Harold Murphy were among the local lads who assisted in putting the tackle around the car before it was hoisted to the cliff edge. The car was adjudged a total loss.

Capt. J. C. Brochek of 4330 Newport Ave. returned this week to his home after spending nine weeks in the Naval Hospital.

Ocean Beach Yacht Wins Second In L. A.-Hawaii Race

The yacht Fairweather, owned and sailed by Fred Allen of 4871 Newport Ave., won second place honors in the annual Los Angeles-to-Honolulu yacht race. The Fairweather completed the course in 12 days, 19 hours and 31 minutes, less than four hours behind the Chubasco. Movie Actor Frank Morgan's Dolphin II won first place, however, as she carried a greater handicap than the Fairweather or Chubasco.

Mr. Allen's handicap was one day, 16 hours, 11 minutes and 54 seconds, making his corrected time 11 days, 3 hours, and 19 minutes, which is two hours behind the Dolphin II's corrected time. The Fairweather holds second position in both actual time and corrected time.

MEET YOUR OCEAN BEACH NEIGHBORS

Purcell "Spike" Webb, owner of Ocean Beach's popular Webb's Canteen and a member of the board of directors of the Ocean Beach Chamber of Commerce, was born in Arcola, La., on March 20, 1910. He attended school in Montpelier, La., graduating from the Montpelier High school.

In July, 1933 Spike enlisted for a four-year hitch in the U. S. Marine Corps. Assigned to fleet duty, he served aboard various waters for four years. Of the many ports which Spike saw during his service, he was most impressed with his home port, San Diego, so following his discharge in 1937 he took over the tailoring and pressing concession at the Marine Base here.

In January, 1942, Spike reenlisted in the Marines and wound up with the same job he had in civilian life—running the base tailor shop. In October, 1945, he received his discharge as a sergeant.

In October, 1942, foreseeing the success and growth of the Ocean Beach business community, Spike had bought the Canteen on Bacon street, and had hired a manager to run it for him. In December, 1945, Spike took over active management of the Canteen, completing extensive remodeling on the establishment.

In October, 1944, Purcell married Edress Dunn of Little Rock,

Wright post of the American Legion. In between these activities and his duties at the Canteen, Spike finds time to hunt and fish. Last fall he brought back some venison from the Laguna mountains, and the ducks and quail of Imperial Valley are occasionally thinned out by Spike's 12 guage.

Vacation School At Church Closes Ten-day Session

Point Loma Methodist church Vacation Bible school had an enrollment of 60 pupils, one of the teachers informed The News Wednesday. Following a session that lasted about 10 days, the school closed Friday forenoon.

Highlights of the closing day for the children was a program of outdoor games at the church and the serving of refreshments of ice cream and fruit punch. Arrangements for the closing day were made by the teachers.

Rev. Paul C. Biesemeyer, the pastor, was general superintendent of the school, and on the faculty serving with him were the following:

Mrs. Ruth Carlisle, Mrs. Laura Weitz, Mrs. Leola Keller, Mrs. Joe McLean, Mrs. Madeline Teerela, Mrs. Betty Parker, Mrs. Phyllis Luxemborg, Mrs. Roger Gray, Mrs. Clarence West and Miss Virginia Ahlgren.

RONALD CAMERON PLANS TO LEAVE FOR HAWAII TO BE STUDENT PASTOR

Ronald Cameron, son of Mr. and Mrs. Donald M. Cameron of 4436 Newport Ave., plans to leave in August for Hawaii, where he will accept a position as a student pastor in one of the Methodist churches there. He is an Ocean Beach young man, having grown up here and graduated from Point Loma high school. Recently he has occasionally assisted Rev. Paul C. Biesemeyer of the Point Loma Methodist church and now is a student at Redlands University. He also was recently employed for a time in the Greeson hardware store.

WOMAN INJURED IN CAR ACCIDENT ON VOLTAIRE REPORTED RECOVERING

In an auto accident at the corner of Cable and Voltaire Sts. July 17, Mrs. Rosa Mechsner of La Mesa was one of the three pedestrians struck by the car driven by John A. Traxter, 17, of 1115 Savoy. Mrs. Mechsner first reported in critical condition with head injury and fractured leg by county hospital authorities last week is now said to be recovering. Mrs. Doris Taplin, 40, of Grossmont, who suffered internal injuries and a compound fracture of the leg, and Mrs. Madeline La Page, 45, of La Mesa, who incurred back injuries, also are reported recovering. Traxter was given a police citation for driving without due caution, since the impact hurled the pedestrians 30 feet, witnesses said.

Seen: No flying saucers. . . . Donna Grace riding a tall sorrel horse down Newport avenue Sunday night. . . . .Fancy new gray-green paint job on Carl Oberg's truck—nice to know that painters find time to paint their own vehicles. . . . Ditto paint job on Sam Tomes' venerable Chevrolet pickup, only robinsegg blue in this case.

Heard: That the weather was not any too balmy for the Kiwanis—Kiwani-Anne picnic Tuesday night.

Wondering: Why the city does not put stop signs or traffic lights on the Narragansett Ave.-Catalina Blvd. corner before more people get hurt there. . . . ditto why they don't put a dead-end sign on the top block of Newport avenue so drivers unfamiliar with the area won't go barreling east, expecting a through route to San Diego.

Door of Hope Starts On Landscaping And Plans Dormitory

An ambitious landscaping program is under way at the Salvation Army's Door of Hope home on Bolinas street in Ocean Beach. Many fruit trees and other trees and shrubs have already been planted and several San Diego and Ocean Beach groups have volunteered to help in this work. Rev. Joseph Fox, newly elected president of the Door of Hope board, has also announced tentative plans for a new staff dormitory, which the board hopes to build to relieve congestion in the present buildings. "I hope the people and organizations of Ocean Beach will get behind this worthy cause and do what they can for us," said Rev. Fox.

Other new officers include J. H. Sullivan, vice president; J. P. Haddock, treasurer; Birdie Martin, secretary; Mrs. Lottie Porterfield, dormitory committee; T. S. Packard, legacies and bequests; A. Leeman Davis, house; Mrs. Chester L. Dorman, women's cooperation; Russell S. Stowell, legal matters; Donald E. Hansen, budget; and Dr. Ralph Russell and J. H. Sullivan, grounds.

Lions Club Told Of Continuing High Taxation By Speaker

The Ocean Beach Lions Club heard a talk on "Taxation and its Effect on Business' by Edward S. Hope of Hope and Co., San Diego, at the meeting Thursday evening, July 17, at the Community Center. Mr. Hope emphasized that American businessmen should be prepared for continuing high taxation for another two or three years, until demands of the army, navy and other government agencies are more nearly normal.

Program chairman for the evening was H. B. Hollobaugh. Bob Stevenson, president, presided at the meeting. Guests were Terry S. LaGrone and Bud Kidwell.

Bethany Lutheran Vacation School Has "Open House"

Bethany Lutheran church closed their three weeks annual Vacation Bible school Friday with an "Open House" program, held at the church school during the forenoon. The school, which had been in session since Monday, June 30, had an enrollment of 60 and an average attendance of 53, reports Mrs. Martin Lankow, wife of the pastor.

Rev. and Mrs. Lankow were in charge of the school and the other teachers were Mrs. Margaret Wenzel, Mrs. Merle Porter, Mrs. K. Kerns, Mrs. John Holland, Mary Dee Clark and Donna Mae Riese.

Pastor at Lake Tahoe

Rev. Lankow and daughter Martha Ruth left Wednesday for Lake Tahoe, Calif. where he will fill the pulpit for the next two Sundays at summer services of his denomination being held there. The trip also had been planned as a vacation for the Lankow family, but on account of the illness of their oldest daughter, Donna Ruth, Mrs. Lankow and their daughters were unable to make the trip. Donna Ruth has been bedfast at her home with rheumatic fever for the past month.

During the absence of Rev. Lankow, his father Rev. W. J. Lankow, will fill the pulpit at Bethany Lutheran the next two Sundays.

MRS. WALTERS RETURNS FROM EXTENSIVE TRIP

Mrs. C. C. Walters of 4475 Mentone was expected home this week from San Miguel, Calif., her last stop on an extensive trip through the west. As an employee of the Western Union Company, she was sent to Salt Lake City, Utah, on company business July 12. Returning, she took the opportunity to visit her son Charles in San Francisco, and also her other son Joseph, who is studying for the priesthood at the mission in San Miguel.

MRS. BENCHLEY MOVES

Mrs. Belle J. Benchley, for 20 years director of the San Diego Zoo and for ten years a resident of Ocean Beach, moved two weeks ago it was learned this week, from her home here at 5106 W. Pt. Loma Blvd. to Mission Hills. Doctors advised her that her mother's health required a drier climate.

New Buildings Added To Business District

Korner Malt Shop Changes Hands On Thursday, July 24

The Korner Malt Shop at the corner of Newport Ave. and Cable St. changed hands Thursday, July 24. Three partners, George T. Stavros, James B. Riley and Tom E. Chamis, who have conducted the business for the past 11 months, sold to Bill Condos of San Diego, and the latter took possession on the date mentioned, and is leasing from William Cords, owner of the building.

Condos says he will continue the same lines of fountain refreshments served by the previous owners for the time being, but expects to add other lines later. He was formerly with the Savoy Cafe in down town San Diego.

Though he had a previous residence in San Diego of about 30 years, Condos is even more satisfied with the good old U.S.A. since he and Mrs. Condos returned here in March 1946 from seven years of "mighty tough going" in Greece, as he expresses it. His experience in the war included compulsory labor. Several of his near relatives are living in Greece.

Asked about the conditions there he reported the word from his relatives indicated that many of the Greeks are starving and that the help from the U. S. under the new congressional appropriation is not coming a bit too soon.

LOCAL MAN PROMOTED TO CAPTAIN IN AIR CORPS

Master Sergeant Robert H. Perlman, whose mother Mrs. Maud Arden lives at 1783 Cable St., recently was discharged to accept a commission as captain in the Army Air Corps.

On March 18, 1943 Perlman had been promoted to second lieutenant and had served at the Army Air Base in Honolulu. March Field, Calif., Fresno Army Air Base in New Orleans and at the Army Air Base in Honolulu.

He attended Point Loma high school, and enlisted in the Army in 1937 at San Pedro, Calif. His wife, Nona E. Perlman, has been making her home in Ohio near Wright Field, where Capt. Perlman has been stationed most recently.

Mouse Burglar Raids Six Local Houses

The so-called "mouse burglar" has staged several raids in the Ocean Beach area recently. On Wednesday evening, July 16, the soft-stepping intruder entered the Ray Perine residence, 4612 Lotus St., while the Perines were listening to the radio, and stole a billfold and coin purse. The thief gained entrance through a bedroom window.

The same night burglaries were reported by three Seaside street residents and two on Muir avenue. All six robberies are believed to have been committed by the same person, the locally famous "mouse burglar," who doesn't bother to wait until the homeowners are gone or asleep, but brazenly and quietly burglarizes while the residents are in another part of the house.

Carl Lundquist of Chicago is currently the guest of his cousin Mrs. H. G. Jones Sr. and her son and daughter-in-law, the H. G. Joneses Jr. all of 3776 Milan. He will be here a week.

JONES SERVICE STATION NEARLY DONE; ONE NEW STORE BUILDING BEGUN

(By F. F. Swan)

Newport Avenue business district provides the major building construction news this week. A survey by The News Thursday revealed the following headline new building data:

Glen Jones' Texaco Service station is now almost complete and Glen says he is hoping to have the station open and ready for business this week-end. Bacon St. near Santa Monica, where he ran the Richfield station for 13 years 9 months, misses Glen, but his friends cannot blame him for wanting a station of his own, nor can they find fault with his choice of a new location at the corner of Newport Ave. and Sunset Cliffs Blvd.

Glen for a long time has owned the two Newport Ave. lots totaling 50x140 feet, on which he and family had their residence for a time. He is now realizing his goal of a service station of his own on this prominent corner.

On the property Glen has constructed one of the most modern service stations in the city, to be known as the Glen Jones Texaco station. Construction feature is the near 100 percent of steel except for the masonry boundary wall.

The building proper is 24x80 feet and is divided into four large

O. B. Merchants Break Even In Two Games Last Week

The Ocean Beach Merchants softball team won one and dropped another in games played at Horace Mann Playground during the past week. Friday night, July 18, the local men upset the hard-fought game, which saw Glen Guthrie pitch a five-nitter. Modern Woodmen 3 to 2 in a Ben Powelek garnered a couple of base hits, and Thorpe's safety brought in Mgr. Bill Homik with the winning run in the 6th. Summaries: O:B.—3 runs, 7 hits, 0 errors; M.W.—2 runs, 4 hits, 1 error.

Lose to Campbell

The Ocean Beach aggregation didn't fare so well in their tussle with Campbell Machines Sunday night. Pitchers Allen and Guthrie allowed 10 hits, giving the Campbell boys 6 runs to Ocean Beach's 3.

To Broadcast Games

Bill Homik, manager of the Ocean Beach team, informed the News this week that beginning Aug. 1, a play-by-play broadcast of games in the AAA League (of which Ocean Beach is a member) can be heard in the evenings over new radio station KSON.

NEW CLAIMANT TO BIG DAHLIA GROWING TITLE CHALLENGES THIS WEEK

Stepping forward to challenge the dahlia-growing championship which last week appeared to be captured by Mrs. James E. Hollycross of 4475 Niagara, is Mrs. T. R. Medlicott of 4435 Narragansett. Mrs. Medlicott's giant dahlia measures nearly nine inches in diameter, as compared with the eight inch bloom presented by Mrs. Hollycross. Both the blossoms are a credit to the Beach and to the ladies' prowess in the garden, and it's a close race, though the Medlicott entry might win by—shall we say—a petal.

City Council To Decide Question Of Mission Bay Dredging Next Tuesday

FAVORABLE STEPS TAKEN BY CONGRESS COMMITTEE ON MONEY FOR CHANNEL

San Diego city council plans to decide next Tuesday whether the dredging operations in Mission bay shall proceed or be brought to a halt for the time being.

Councilman G. C. Grary evidently is in favor of going ahead, his idea being that the city should proceed with dredging of a channel to the northeast corner of the bay. Other councilmen, however, said at the council conference held this week that they wanted a break-down of the city funds already spent on the project and how much more city money is available before letting contracts for dredging.

In his discussion of the matter, Mayor Harley Knox was quoted as questioning the advisability of doing more dredging until the flood control channel for the San Diego river is built, on grounds a flood would fill in the dredged area. He also questioned the advisability of spending money to develop new areas in the bay un-

Two Local Folks Appear in Play Riders To The Sea

(By Claire Hollobaugh)

The first informal meeting of the Globe Theater group Monday, July 14, featured J. W. Synge's one act play, "Raiders To The Sea," in which two Ocean Beach residents appeared—Mildred Lamond and Joan Holly.

The meeting was well attended by Globe Theater enthusiasts from all over the city, and it was the first meeting to be held in the Globe Theater of Balboa Park since 1942. A rehearsal of the Globe's entering play for the county play competition took place during the first half of the meeting.

"Riders To The Sea" is the tragic story of an old Irish woman and her two daughters who wage a steady losing battle against the sea for the lives of her sons. Mildred Lamond played Maurya, the old Irish mother, effectively. Though her timing was a little slow and her emotional changes rather sudden, still she created good atmosphere and conveyed the feeling of an authentic character.

Cathleen, the older daughter, was played well by Joan Holly. Miss Holly's voice was very well projected although it could have shown a little more emotion. Cathleen's sister, Nora was portrayed convincingly by Hope Wheeler. The role of Bartley was developed to a fine pitch by Richard Lloyd. Besides evolving a steady character, the ease with which he handled the difficult diologue showed extensive rehearsing.

The direction of the play was in the hands of George Lamond. Though the play seemed a little steep for an amatuer group Mr. Lamond's production displayed plenty of preparation.

NEWS IN BRIEF

Mrs. Mary Santos who since June, 1946, has been the guest of her daughter Mrs. C. H. Bradeen of 2151 Mendocino and Mr. Bradeen, will leave August 7 for her home in Honolulu, Hawaii.

til it has been determined there is plenty of money on hand to develop for maximum use the areas already dredged.

Good News From Capital

In news dispatches Tuesday from Washington, D. C., however, word came that a Senate appropriations sub-committee has acted favorably toward appropriating money for the proposed outlet channel for the San Diego river. The Congress has previously approved the project, though no appropriation has yet been passed.

Injected by the sub-committee into a $299,900,000 flood control appropriation was a flat one million dollars on the lower San Diego river flood control phase of the proposed $14,680,000 Mission Bay Yacht Harbor development.

The million dollars was inserted during a final sub-committee markup of its 1948 War Department Civil Functions Appropriations bill, after a week-long fight for favorable action by Sen. William F. Knowland (R-Calif), a sub-committee member.

Hope Now Renewed

San Diego city officials had all but given up hope on their million-dollar request this year, especially after the House turned down all but a paltry $12,500 to begin San Diego river flood control blue-prints.

Even Knowland had warned that a renewal of the request might not weather Senate sub-committee hearings.

The full appropriations committee will report the sub-committee's recommendations this week. Custom dictates that the spending bill will go to the Senate floor with few if any changes in sub-committee recommendations.

Senator Knowland said the million-dollar San Diego river flood control item, like dozens of others in the measure, still must survive Senate floor debate and later a conference of House and Senate members to iron out differences in versions of rivers-harbors and flood control appropriations bills approved by the two chambers.

Fletcher Also Helping

As soon as it was certain the Senate sub-committee had approved the million-dollar San Diego river flood control item, Knowland went into a conference with Rep. Charles K. Fletcher of San Diego to discuss strategy for keeping the appropriation alive.

Later this week Congressman Fletcher will be faced with the task of persuading House conferees on the Army Civil Functions Appropriations bill to keep the San Diego fund intact during the Senate-House conference. He must protect it again when the House considers the eventual conference report. Knowland has the same job on the Senate side.

Born to Mr. and Mrs. Sidney Gardner at Mercy Hospital July 5 was Linda Sylvia, seven pounds five ounces. Her parents live at 2227 Bolinas St.

HAGBERGS TO MOVE TO DENVER, COLO.

Mr. and Mrs. Gordon P. Hagberg and young son and baby daughter will leave the first week in August for Denver, where they will make their home. Mr. Hagberg has accepted a position as assistant professor of journalism at the University of Denver, having sold his interest in the San Diego Veterans News, of which he was publisher. Previously he was administrative superintendent at the naval electronics laboratory on Point Loma. He served as a major in the Marine Corps during the war.

Prior to entering the service, Mr. Hagberg was employed by the Union-Tribune newspapers, and papers in Miami and New York. A graduate of Cornell University, he also attended the school of journalism at the University of Missouri.

The Hagbergs have been living at 4415 Brighton Ave. in Ocean Beach.

NEWS IN BRIEF

Mr. and Mrs. James P. Clem of 4945 Cape May are the parents since July 3 of a new son.

A daughter was born July 1 to Mr. and Mrs. Elmo Todd of 5062 Narragansett.

Miss Janet Kapy of 4875 Santa Cruz is currently visiting her brother E. N. Kapy in Inglewood, Calif.

After a record trip to Fresno, the Anthony Curriers of 3755 Milan St., returned to Ocean Beach July 22. They had left on their trip the previous day. While in the valley city, they were the guests of their daughter Mrs. H. J. Nicholas, her husband, and her parents-in-law. Mrs. Nicholas returned with Mr. and Mrs. Currier and brought with her her small daughter Toni Ann. They will be visiting in Ocean Beach about a week and a half.

When Marines get together, the conversation just naturally drifts to their justly famous corps. That's what happened July 21 at the home of Mr. and Mrs. C. D. Flowers, when they invited no less than five marines or ex-marines for an informal get-together. While the ladies listened, the men "shot the breeze" on the subject. Present to air their views were: Mr. and Mrs. Harry Lockwood, Mr. and Mrs. Rudy Teerella, Mr. and Mrs. Ray Bumbaugh, Capt. and Mrs. R. P. Brezinski and John Pitchlyn.

CORRECTION

In a story regarding the boat races at the Pacific Beach Fiesta in last week's issue, we erroneously referred to the San Diego Speedboat Club as the San Diego Yacht Club. Our apologies to both organizations.

Royal Neighbors Camp Will Picnic With Other Camps

Ann Cordingly camp, Royal Neighbors of America, will join with the other camps of the district at Eucalyptus grove in La Mesa for a basket picnic Sunday, July 27. All Royal Neighbors, their families and friends are cordially invited to attend, the officers announce.

Members Transfer Here

The regular business meeting of Ann Cordingly camp was held Friday, July 18 at 8 p.m. in the Woman's club house, with Oracle Florence Danner presiding. During the regular business session, Mr. and Mrs. Roland Hodges of National Camp National City, and Estelle Bergman of Camp 9319 Seattle, Wash. were accepted and welcomed into the camp as transfer members who are now residing in our vicinity. There were also several visitors from Enid camp of San Diego, and National camp of National City, including Ann Cordingly, former district deputy. Recorder Effie Whorrall and Receiver Lottie Bodendeck were welcomed back, both having been away on their vacations.

Following the business session refreshments were served by Mary Fold and Barbara Bois and their committee.

Mr. and Mrs. Norman P. Kennedy of 5035 Narragansett are the parents of a son born July 7.

Women Expect To Organize Garden Club on July 28

Organization of a garden club to lead in a campaign to beautify the Beach is planned by members of the Ocean Beach Woman's Club's garden department at a meeting to be held July 28 at the home of Mrs. F. M. Kyde, 1054 Devonshire Dr. Members may take the Azure Vista bus and get off at Devonshire.

In answer to repeated questions as to whether interested citizens must be members of the Woman's club in order to participate in this movement, the answer is no. All interested parties are welcome to attend this initial meeting, and the invitation includes the men, also, announces those in charge. Mrs. Hunter, a garden expert, will speak to the group, and she is expected to outline what the Beach requires in the way of landscaping.

Club Women Busy

Members of the Ocean Beach Woman's club have a large and ambitious agenda on hand for this week and next. Wednesday the San Diego County Federation's Summer conference was held at the hall of the "Hard of Hearing" Society in San Diego, and July 29 and 30 will see a two-day conclave of the clubs of the five counties comprising the southern Calif. district in the U. S. Grant hotel.

District President Mrs. Edward A. Crokat will then enlarge on and stress her chosen theme, "Our Work As We See It" and will lead the discussions of that matter. Side by side with her in this leadership will be Mrs. C. W. Early of Ocean Beach, whose position as district chairman will call for leadership from her. She will be principally active in the newly inaugurated "room conferences," wherein she will direct the discussions on the subject, "Keeping Clubwomen in the News."

"This is definitely a workshop session," she said, "differing from a convention in that it will outline plans for future work, rather than review work of the past." She stressed the fact that it will not be a closed session, and that all clubwomen are invited and indeed urged to attend.

D. S. PIERCES' POPULARITY SHOWN BY FULL HOUSE

Likely this week's record for the greatest number of house-guests in this community may well be granted to Mr. and Mrs. D. S. Pierce of 4622 Lotus who are at least serious contenders for the honor. It all started when Mrs. Pierce's mother, Mrs. William Murray of Bisbee, Ariz. arrived July 4 for a visit and was joined a week later by her husband. They left Tuesday for Long Beach to pay a call on their son Harold Murray. Since they left, the Pierces expect to receive Mr. and Mrs. Jack Southerland of Los Angeles, who will stay with them for five days. On the heels of the Southerlands, Mrs. Pierce's nieces Doris and Betty Stepson of Bisbee are scheduled to drop in for a couple of weeks. And after they return home, Mr. and Mrs. Murray will be back with the Pierces for an additional month. Evidently that's a sample of the popularity Beach residents can expect in the sumertime.

Kay McLaughlin, 12, is recovering from an operation on her foot which she underwent in June. This week the cast came off, and Kay expects to be soon walking around good as new. The operation is the culmination of a long series of treatments for sapolio, with which the youngster had been afflicted since babyhood. In the fall she expects to enter Dana Jr. high school. In the meantime, her parents, Mr. and Mrs. W. J. McLaughlin have been increasing the family with the arrival of Kathleen Ann who was born July 9 in Quintard hospital. She is the couple's third child, since Kathleen and Kay have another sister, Billie Mae, who is eight. The McLaughlins live at 1568 Catalina.

MR. AND MRS. ORA L. SMITH, who held open house Saturday, July 19, in their home, 4926 Saratoga Ave. The Smiths were married in Yuma on July 13. During Saturday afternoon and evening 182 guests were received by the couple. Assisting the host and hostess in receiving and introductions was Mrs. F. B. Hesse of La Jolla, while Mr. and Mrs. James A. Martin of Ocean Beach assisted with the refreshments. The bride opened many wedding gifts during the course of the evening.

Sixty Kiwanians And Wives Picnic At Beach On Bay

Approximately 60 members of the Ocean Beach Kiwanis club and their wives and a few children made merry at a picnic on the Mission Bay beach, located below Glen's Drive-In. Assembling at 6:30, the group were fed cafeteria style by the caterers who regularly cater to the club at their Wallace hall meetings every Tuesday night.

Milton Lancaster, chairman of the club's program committee, was in general charge of the event. A few of the more athletic minded club members indulged in softball and beach ball preceding the "feed." The group were seated at three large and several small tables.

Following the picnic dinner, the highlight of the evening was the singing of old familiar songs, led by Jerry Sullivan, the club's soloist, as the group assembled around a roaring camp fire. The "Good Night" ladies song wound up the party shortly after 9 o'clock.

Mrs. Michael Ardolino and Miss Sally Morosa of Los Angeles are spending this week at the Kenline home.

San Diego Traffic Police Warn The Car Horn Honkers

(By S. D. Police Dept.)

A lot has been written about the "horn happy" individual who attempts to blast his way through traffic jams simply by sitting on the horn button. We have all seen this type of driver—you know, the one who gets into the jam and thinks the horn is going to make other drivers move right out of the way. There are even those who try to honk their way past the traffic officer who is directing traffic. If people would only stop to realize there must be some reason for the jam—perhaps a stalled car, maybe a wreck or some other thing which the horn-honker cannot see.

The Vehicle Code has this to say about honking your horn: "The driver of a motor vehicle when reasonably necessary to insure the safe operation shall give audible warning with his horn—such horn shall not otherwise be used." Now there are those who believe that horns should be used when going through blind intersections. Does the use of it insure the safe operation of the vehicle? No, it only adds an additional hazard to a bad condition for, as a rule, the horn-honker at a blind intersection is speeding and uses the horn to let other motorists know that he is coming too fast to stop. What would be the result if two such drivers approached the intersection at the same time? That's right—the inevitable would happen — a smash-up. They have realized only too late that the horn did not prevent the accident. Perhaps some motorists are a little confused, for at one time, they have heard that you should honk when rounding a blind curve. That is a good practice, provided one is on the right side of the road, but should not be followed at blind corners.

We have all experienced the impatient horn-honker who blasts his horn the minute the signal light changes. He is the same individual who insists on his own rights—so much that he forgets about the rights of others. There may be a time that a light honk would be warranted if the motorist was slow in responding to the change, but even then, there might be a good reason for his not moving; such as, motor trouble or a small child crossing the street whom he could not see from his position in the roadway. Impatience on the highway leads to traffic crashes and DEATH.

There are times when proper use of the horn shows very good judgment. It is always proper to honk your horn when passing another car to the left on an open highway or when you think it necessary when passing anywhere. When passing children who are playing in or near the street, a motorist should not honk the horn and expect the children to accept full responsibility of staying out of the way. A hand on the horn and a foot on the accelerator has resulted in many serious accidents. In many cases the horn and brake should work simultaneously. This is very true when passing the children. As motorists, we should accept the responsibility of avoiding accidents with children. Remember, a HORN will NOT stop a car—only by applying pressure to the brake pedal may one expect to stop in time to avoid the crash. A child's life is more precious than the time you will save by speeding. In short, rely on your BRAKES instead of your HORN.

State's Fight To Retain Tidelands Continued July 17

LOS ANGELES, July 17 — California's fight to retain 3000 square miles of valuable tidelands was continued today (July 17) when Attorney General Fred N. Howser filed a petition for a rehearing which vigorously attacks the recent decision of the United States Supreme court.

Asking either the court's opinion be reversed or the case set for further argument, the petition declares:

"If this decision should stand, no one today could foretell the extent to which future Federal administration may go in asserting the right to expropriate private property and property rights on the vague concept of 'national power.'"

The petition recites that the tidelands case was submitted to and decided by the supreme court without the examination of factual, historic and legal data by a trial court, with the result that at least six established principles of law were overlooked.

The "overlooked" principles set forth in the petition are:

1. Constitutional grants to the national government do not carry with them a yielding of property rights.
2. Prior rejection by the court of the contention that federal ownership of the beds of tidelands waters was essential to full control over external affairs.
3. The rule that territory can only be annexed or acquired by congressional action.
4. The rule that the original states and not the federal government own the marginal belt along their coasts.
5. The principle that a rule of property law on the faith of which innumerable titles have vested should not be rejected.
6. The decision has deprived California of its sovereignty and relegated it to a position of a private individual.

DEATH TAKES MRS. ROSE TRIMBLE

Mrs. Rose Trimble, wife of Lt. Comdr. James H. Trimble who is stationed at the Naval Training Station, died July 20 in her home at 4594 Pt. Loma Ave. She was 34 and came here a year ago from Boston, Mass.

Surviving are her husband; a daughter, Edith Jean Trimble, of San Diego; her parents, Mr. and Mrs. Manuel Pedro, three sisters and three brothers, all of Honolulu. Mrs. Trimble was born in Hilo, Hawaii, July 13, 1913.

Private rites will be conducted this morning, Friday, at 10 a.m. in Bonham Bros. Chapel. Interment will be in Greenwood cemetery. Dr. George A. Warmer will officiate.

In honor of her young guest Miss Virginia Nutting of Redondo Beach, Mrs. E. R. Cunningham staged a wiener roast July 18 in the patio of her home at 4979½ W. Pt. Loma Blvd. Twenty-two of the younger set were present to welcome 16-year-old Virginia to Ocean Beach, and with typical bobby-soxer energy played badminton and "truth or consequences."

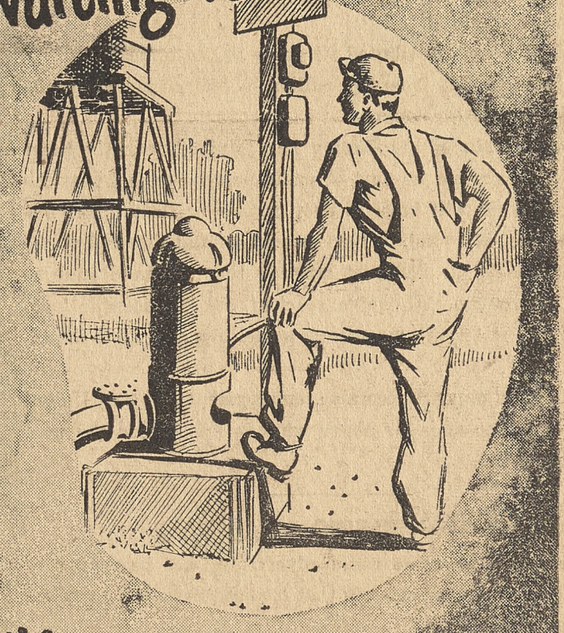
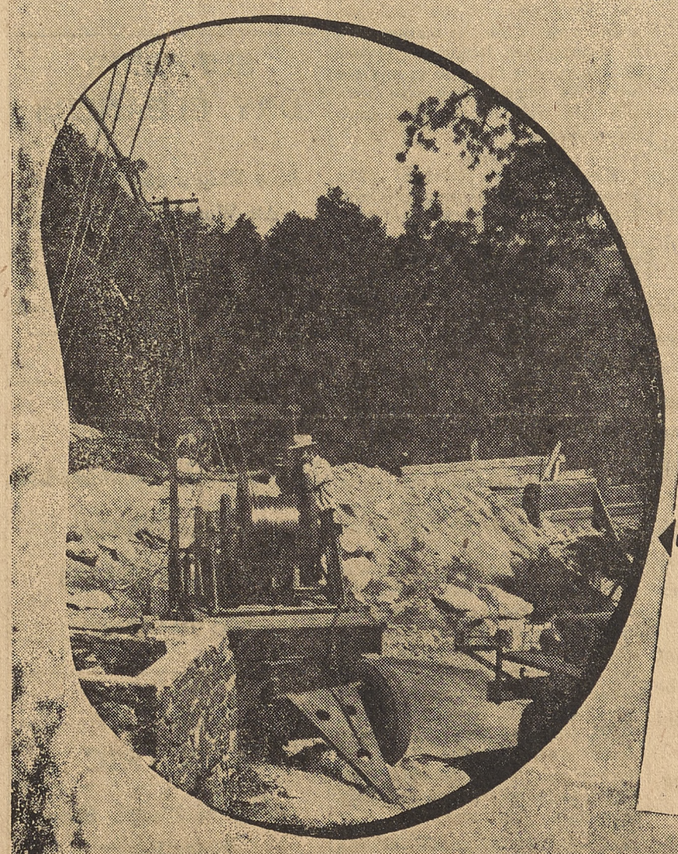
Electricity is worth waiting for


Just picture the advantages of having running water on hand all of the time . . . for irrigation . . . in the house . . . in the barn and out-buildings. And it can be an economical reality . . . when you pump water electrically. Small wonder then that 4,000 new customers in San Diego County have applied for electric service and are waiting for the conveniences of new fully automatic ranges, water heaters, automatic washers, dishwashers, sinks, home freezers, pumps and other appliances that electricity makes possible.

And WHY some are waiting


Extending service to 4,000 new customers under existing postwar conditions requires TIME. Shortages of construction materials and trained personnel continue as major bottlenecks. Hard-to-get copper wire, transformers and line equipment are being secured in slowly increasing quantities. Many men have been employed, but training requires time. Advertisements in eastern publications for experienced workers produced poor results and prompted the establishment of a school in Chula Vista where ex-G. I.'s and others are being given an eight-months' course of training as linemen.

Our own line construction crews have been augmented by 16 additional private contractor crews and line construction is going ahead at a tremendously accelerated rate. New customers are now being connected at the rate of over 600 a month, reducing the backlog of applications to approximately 4,000. As new services are "cut in", we frequently hear this expression: . . . "Now we have electric service; it was worth waiting for!"

FAIR PLAY—FINALLY

We're glad that the Kiwanis club in Ahoshie, North Carolina "saw the light" and decided to give the Negro war vetern, who was the original winner in their Cadillac car lottery, another Cadillac in place of the one first denied him.

It would have been much better, of course, if they had given him the car in the first place and had not precipitated the nationwide protest against their original action in refusing to recognize him as the winner because he is a Negro.

Probably no group of citizens were more angered or protested more strongly against the original action than did other Kiwanians throughout the country. Anyway, it's gratifying to see that real fair play prevailed.

SIXTY MILLION EMPLOYED

The United States has "gone through the ceiling" on civilian employment. The almost fantastic 60-million-job talk of yesterday has become the reality of today.

Last year the 60-million mark was reached by including the 2½ million men and women in the armed services. But this year the civilian jobs alone total that number.

The increase over pre-war employment is shown by comparison with the 1940 figure when approximately 53 million persons were working.

California has contributed its share to the increase. Civilian jobs here climbed from 2½ million in 1940 to more than 3,600,000 by the latest count.

Although talk of a recession has lessened recently there is still a tendency on the part of many persons to feel that the present job total will have to drop sooner or later. The employment level is bound to have some ups and downs but we shouldn't accept the defeatist attitude that we have gone as high as we can go. If we've reached the "impossible" 60-million figure why can't we achieve something still more impossible?

One thing appears certain: employment in the United States is going to stay far above what is was before the war. And that's good.

KEYSTONE OF MASS SELLING

Some years ago when radio advertising was beginning to develop there was some concern that it might eventually replace newspaper advertising.

Any fears in that regard have long since been dissipated. Radio advertising, like radio itself, has attained a place but hardly at the expense of the printed medium since the demand for newspaper space continues strong.

At the recent convention of the Newspaper Advertising Executives Association held in San Francisco the importance of newspaper ads was stressed by Lou E. Townsend, Vice-President of Bank of America in charge of advertising, who pointed out that his institution over the years had spent an average of 59 cents out of every advertising dollar in newspaper columns.

Townsend told of the remarkable results obtained by his bank through newspaper advertising in popularizing the use of bank money orders and travelers' cheques, in attracting new depositors and loan customers, in encouraging thrift, in counteracting the fear psychology so widespread during the depression, and in stimulating the sale of War bonds during the great world conflict.

He also pointed out the success obtained largely through the same channels by such men as Billy Rose, the night club impresario, and Fred Beck, the founder of the fabulous Farmers Market in Los Angeles.

"Our experience," said Townsend, "has taught us that newspaper advertising does pay. It gives the merchant the best and most timely opportunity to sell his services and build a reputation for his company.

"To me," he concluded, "all advertising is mass selling, and the keystone of mass selling is the newspaper."

COL. JOHN MORLEY, Santa Ana, noted foreign corresp. — "The Nation trains men for fighting roles; why shouldn't we train men for diplomatic roles?"

JACK BURKET, S. F. columnist (quoting friend)—"Before a person puts his tongue in high gear, he should make sure his brain is turning over."

S. M. BEAUBAIRE, Pub. Chico Record—"Knowledge of the structure of living things is being pushed to its absolute limits, but no test-tube explains creation."

DR. LEWIS M. TERMAN, Stanford U. Prof. after studying I. Q.'s of 1400 prodigies—"I found no Newton, Galileo, Faraday or Darwin among them, but they're sure of better jobs, higher pay, happier marriages."

NEWS IN BRIEF

T. E. Sundberg of 4594 W. Pt. Loma Blvd. is returning to his work at Solar Aircraft Co. in San Diego after a two week's vacation which he spent at home, working in his garden.

Mrs. C. M. Allen of 4849 Saratoga, last week entrained for San Francisco and a visit there with her daughter Mrs. J. V. Vanderpool. She was scheduled to return today, bring with her her niece Joyce, 11, who will be her guest in Ocean Beach for about a month.

Mr. and Mrs. Richard N. Noonan of 4615 Del Monte entertained Mrs. Noonan's brother, Arthur R. MacDonald and Mrs. MacDonald and son Robert, during the weekend of July 20. The MacDonalds returned to their home in Pasadena Monday, but young Robert remained in Ocean Beach to spend a week with the Noonans. He and his cousin Richard Noonan Jr. will leave Saturday for Pasadena, where Richard will be the guest of the MacDonalds.

A few amused friends of the Glen Cords rejoiced with them upon receipt of their novel birth announcement designed for them by Barbee, who last week was the featured attraction at the Cords' paint store here. The announcement presents Carol Lynn, the new addition to the family, as a new product on the market, and in appropriate language, invites all and sundry to come in and see her. The Cords' baby was born July 19, weighing seven pounds three ounces.

Mrs. Nellie B. Burt of 4974 Saratoga Ave. was a guest Sunday at the home of Mr. and Mrs. S. McVey in Encanto at a chicken dinner party party. Mrs. Burt is an old friend of the McVeys, dating back to the days when her late husband and Mr. McVey worked together for the Chicago, Milwaukee and St. Paul railroad in St. Maries, Idaho. The group spent the afternoon playing cards and touring the spacious McVey garden.

From Mr. and Mrs. Philip S. Decker of 4928 Coronado Ave. comes this news of their sons: Victor Decker, for sometime a student at Southern Methodist University in Dallas, Tex., has announced that he will not vacation at home as he originally planned, but will remain in Dallas for the summer classes at the college. Quentin Decker, who joined the U. S. Naval Reserve in April, returned July 12 from a naval cruise on the U. S. S. Springfield. The reservists journeyed to San Francisco and back on training maneuvers.

Help From the Hills

THOSE who seem handicapped by circumstances, restricted by environment, or hemmed in by discordant human relationships, sometimes feel stirring within them the desire to break down their limitations, to rise higher, to step out into a broader sense of thought and action. . . .

The Psalmist says (Psalms 121:1), "I will lift up mine eyes unto the hills, from whence cometh my help." What hills are these? How can the hills help us? In "Science and Health with Key to the Scriptures," Mary Baker Eddy writes (p. 511), "Spiritually interpreted, rocks and mountains stand for solid and grand ideas." With the hills and mountains of inspired thought before us, fresh views and higher vision come into our experience. The human thought requires something above itself, outside its own limited horizon, to deliver it from its restrictions. An infinite source alone can provide unfailing supplies, open wider fields of thought, disclose more harmonious environment, and offer greater freedom. To look beyond material resources and to discover the boundless expression of the Mind which is God, is to entertain "solid and grand ideas," to find satisfaction and fulfillment, whatever the demands and duties of daily life.

One day the writer turned on the radio and happened to tune in on a sermon in which the speaker told of having once, while in Japan, visited the tiniest garden he had ever seen; and yet, he said, it conveyed the impression of breadth and expanse. He inquired of the gardener how he accounted for this. The gardener said that in planning the garden he saw to it that the grouping of shrubs and the making of paths should be such as to open up in each direction a view outward to a distant mountain. Thus he had brought a sense of space to the garden. This helped the writer to see that, just as the mountain view gave breadth to the garden, so the mountains and hills of higher vision, though they may at times seem obscured, will enlarge the place where we are. As we persistently look higher, we shall find our narrow views and concepts fading and our mental scope expanding.

SHORT STORY

Nice Old Girl

By MARGARET COBB

WHEN Sally Carter spied the crisp green of the bill lying against the white of the sidewalk that bordered the engineering building, she dropped the handle of the baby carriage and swooped down upon it.

"Look, Richey, look!" she cried happily to the cheerful bright-eyed boy in the carriage. "A ten-dollar bill—a real, brand new ten-dollar bill. I found it myself, and I can spend it any way I please!"

Turning the carriage briskly to return the way she had come, Sally sped her son back toward the trailer camp that nestled at the foot of the hill, a haven for married student veterans.

Once inside her trailer home she hurriedly hung the pinafore in the tiny clothes closet and reached for her best skirt and sweater. "Do you know what I'm going to do with this money first thing, Richey?" she cried happily. "I'm going to get you a play pen, so you can stay out in the fresh air all day long and have plenty of room to wiggle around in."

3-Minute Fiction

Sally dropped the sweater to give the baby a quick, impetuous hug. "We'll get Daddy that pipe he wants, and maybe there'll be enough money left over to get me some dress material!"

Speeding joyfully across the campus toward town, her hand straying

In mid-afternoon, about the time Sally was unwrapping her gifts.

often to the money in her pocket, Sally suddenly slowed her pace, her face sober.

"Oh, dear," she thought, "I've been so happy about having some money all my own that it hadn't even occurred to me that it belongs to someone else. Oh, dear!"

PARKING the carriage at the door to the engineering building, she entered, hesitated a moment outside a door marked "Office," and went in. The secretary looked up as Sally laid the bill on the desk.

"I found this outside the building, Miss Hanson, so I guess it belongs to someone in here." She was talking fast, turning to leave.

"Wait a minute, Mrs. Carter," the older woman called. "You may as well keep it. I don't see how we can ever find out who it belongs to. 'Finders keepers', you know. Now you just run along downtown and see what you can find to buy."

"Do her good to have some money all her own," Miss Hanson muttered as the door closed. "Of course I should have held it a day or two in case anyone asked about it, but that child probably hasn't had a dollar to spend as she likes since Richard entered here!"

In mid-afternoon, about the time Sally was unwrapping her new purchases at home, Richard Carter was frantically going through his pockets.

"I know I brought it with me," he muttered as he searched one pocket after another. "Good grief, what'll I do? It's all the money we had left for the rest of the month—a nice new ten-dollar bill. I must have dropped it when I opened my billfold sometime today."

A MOMENT later, as he was explaining his plight to the secretary, he was relieved to see a quick look of comprehension in her eyes. "You haven't had it turned in, have you?" he finished hopefully.

"Why, yes," she replied slowly, "I have. At least, a young lady gave me a ten-dollar bill this morning and told me she'd found it outside. It must have been yours. Wait a minute, I put it in my pocketbook for safekeeping."

Reaching into a drawer in the desk, Miss Hanson pulled out a well-worn black bag. After a moment's search she found a bill, tucked away with several one-dollar ones, that was crisp and new and had the numeral "10" in its corners. "Here it is," she said, handing it over with a smile.

The boy took the money with a grateful grin. "Well, thank goodness—we can eat for the rest of the month, anyway," he said as he left the office. "Thanks a million, Miss Hanson!"

rooms, the front room including the office, store room and rest rooms. Next is the lubrication room, containing twin hoists, featuring DeLuxe Aro Center Island lubrication. Third is the car washing room and fourth the polishing room.

Underground is located a 6,000-gallon storage tank for gas and the gas pump equipment includes four of the latest style pumps. All the grounds surrounding the building have been surfaced, providing ample drive-in space for cars.

General contractor on construction was the Western Equipment Co. of Rosecrans St. near Midway. Steel is by the Chambers Steel Co. of San Diego, electric wiring by C. O. Carl of Ocean Beach and the plumbing by Mason Plumbing Co. of San Diego.

Glen Jones retains his second station, located at 4805 W. Pt. Loma Blvd., which, incidentally, is the same number as that of his new Newport Ave. business. He leased the W. Point Loma station, also a Texaco station, on March 5 of this year.

New Store Building Started

Fred Allen of 4871 Newport Ave., local yachtsman, who with his family currently is in Honolulu celebrating his second place victory in the recent Los Angeles to Honolulu ocean yacht race, this week began construction of a new store building adjoining on the west the Allen residence.

The Walter Trepte Construction Co. of San Diego, who have the building contract, reported Thursday that the new structure will have 25-foot frontage on Newport Ave. and will be 85 feet in depth. Concrete block and frame construction is planned, and completion in about 60 days is expected. Rudy Fliescher is the foreman on construction.

The construction firm stated Thursday they understood the tenant would ocnduct an electrical appliance, radio sales and repair business. Information on the identity of the tenant was not available at the time of going to press, the Allens being out of the city.

Swenson Annex Completed

The 28-35 foot annex to the Swenson building at 1875-77 Cable St. has been completed, Paul and Louise Swenson, the owners, reported this week, adding about 1200 feet of floor space to the structure. They bought the building last October, and have been conducting a dry cleaning business there. They are continuing the dry cleaning business in the same building at 1875 Cable and have leased the major part of the structure to James C. Kerr of 2077 Bacon St., Ocean Beach. From 1940 to 1943 the Kerrs resided in Ocean Beach, and are now back here, "to stay," says Mr. Kerr. They had left here in 1943 for San Gabriel while Mr. Kerr operated a steel processing plant in Los Angeles.

His new business in the Swenson building will be a self-service laundry, the first of its kind in this county, reports Kerr. Most of the 1500 feet floor space he will have is one large operating room for the washings, in which he has 20 new electric washers, two high speed extractors and a complete water softening plant. The other room will be a work and general utility room containing the hot water system.

"This will be a completely automatic, coin operated self-service laundry," Kerr stated Thursday. His wife will assist him part time in conducting the business.

The Jordans arrived July 4 and left July 14.

Mr. and Mrs. J. E. Bryce of 3734 Milan are currently entertaining a houseful of guests from Dallas, Tex. First to arrive on July 12 were the Monty Bordens of that city with their small child. The Bryces are also expecting Mr. Borden's brother and his wife, the Kermit Bordens, also of Dallas. They will be in Ocean Beach for two weeks.

Conrad Anderson, William Bond, Russell Litchfield, Stanley Smith, Elmer Porter, and Miss Faye Watters.

After the luncheon the ladies played bridge at the home of Mrs. Granfield.

"Oh, Doctor," said the young lady, "will the scar show?"
